

2<sup>nd</sup> Global Summit on

# Phytochemistry & Traditional Medicine Research

April 19-21, 2027 | Kuala Lumpur, Malaysia

We are delighted to invite you to the **2<sup>nd</sup> Global Summit on Phytochemistry & Traditional Medicine Research (PhytoTMed 2027)**, taking place on **April 19-21, 2027**, in the beautiful city of **Kuala Lumpur, Malaysia**, with a hybrid option for researchers joining us online.

**PhytoTMed-2027** brings together leading scientists, ethnobotanists, pharmacologists, clinicians, and industry innovators to explore the latest breakthroughs at the intersection of phytochemistry, herbal therapeutics, and traditional medicine systems from around the world.

## What to Expect

### Cutting-Edge Scientific Sessions

Explore the latest breakthroughs in phytochemistry, natural products, and traditional medicine research.

### High-Impact Networking

Connect with global experts, researchers, and industry leaders to build meaningful collaborations.

### Poster & Emerging Researcher Awards

Honoring exceptional posters and promising early-career researchers advancing phytochemistry and traditional medicine.
